Thane.

Kind Attn: Mr. Girish Choure

Sub: Energy Conservation Audit at your institute

Dear Sir,

With reference to Energy conservation audit being conducted at your institute since September 18, 2017, we would like to update that the field measurements for lighting loads, at main electricity in-come and other power distribution points are completed. The work of checking performance of air conditioners is in progress which is being conducted on Sundays so that disturbance to classes on working days is avoided.

Simultaneously, the data collected from measurements on field & information gathered is being analyzed for checking the scope for opportunity of energy conservation.

The entire exercise at field and preparation of report is expected to be completed in next 10 working days.

Thanking you.

Yours truly,

Sandeep M Gawde

Energy Auditor
